

#### **4 Reasons You Should Purchase Your Window Treatments From Beyond Blinds, Inc.**

When you are looking to purchase window treatments, there are many places you can go. There are the “big box” stores, the “fast” blind stores, the “low priced” stores, the paint stores, department stores, or Beyond Blinds, Inc. You should choose Beyond Blinds, Inc. and here are the reasons why.

The first reason to buy from Beyond Blinds, Inc. is listening. Their designers listen to their clients. They listen to your desires, likes and dislikes, to find out your style. They listen to what you say to find out just what you want your window treatments to accomplish and how you want the window treatments to function. Beyond Blinds help you determine the solution that you need, not

just the blind that they know or like the best or the blind everyone else in the neighborhood has.

The second reason is product knowledge and selection. Plain and simple, they know their products and have a product to fit every need. They know how each product works, whether it only filters or blocks light or if it allows view through. They know the advantages and drawbacks of their products. If you want to know whether a cellular shade, wood blind, or drapery panels is better in a certain application, the designer will tell you.

The third reason is interior and color knowledge. Beyond Blinds knows interiors and colors. They know the impact color can have, the way different colors make you feel. They know how sunlight can affect your home. They know what colors go together and how to work with furniture and color schemes.

The fourth reason is attention to detail. All their designers have an eye for details. They can specify products and details to make your home look its best. They make sure the blinds, draperies, shutters, and accessory pieces will fit and work properly.

Beyond Blinds, Inc. is the perfect business to purchase blinds from. Their shop at home service is convenient, and allows you to see how the samples look in your home. Low overhead allows extremely competitive prices. Samples are brought to you so you can see how they look and operate where they will be installed. When you are looking for window treatments of any kind, call Beyond Blinds, Inc.
